

# Portrait of a Graduate

Join us for a day of continued learning as your team works towards bringing your Portrait of a Graduate to life. Together, we will continue building our portrait to ensure that we are connecting academics to career planning. This will be achieved by encouraging self and societal awareness, exposing students to the world-of-work, respecting and embracing diversity, and providing purposeful career planning guidance at age-appropriate levels. The primary goal of this workshop is to create action plans for bringing in community stakeholders and rolling out your plan to school district staff, so they can implement this connective work successfully.

FEBRUARY 21, 2024

9AM - 3PM

\$450 (273 DISTRICTS) PER TEAM OR \$650 OTHERS
