Deep Dive into Educlimber

2024
Jan 31
9:00 AM - 3:00 PM

GUEST FACILITATOR
Adam Broten

Many districts utilize eduCLIMBER as their data warehouse. There are specific advanced features that administrators and directors should have knowledge of to support presenting and acting on the information in your system. This workshop will take a Learn, Practice, Apply approach so that teams can leave with created visuals and charts that are ready to use. This day will focus on a few high-leverage features in eduCLIMBER including the Achievement Dashboard (for tracking and monitoring KPIs/District Goals) and features for leading data conversations. This custom training will be facilitated by a current WI administrator, eduCLIMBER user, and eduCLIMBER trainer.

OBJECTIVES

- Learn and create a custom dashboard for district goals/KPIs or other department needs (i.e. attendance, behavior, etc.)
- Develop saved, custom data walls and charts that lead to team action and collaboration (prioritized lists for intervention selection, skill-level charts for data meetings, etc.)
- Learn and practice within the eduCLIMBER platform in real time with flexibility to ask questions and get individual support

DETAILS

Register ONLINE:

- www.cesa6.org/events
- \$150/person

LOCATION

CESA 6 Conference Center 2300 State Road 44, Oshkosh
• On-site check-in: 8:30 AM - 9:00 AM

WHO SHOULD ATTEND?

Curriculum directors, technology directors, principals, assessment team members, teacher leaders
