CESA₆

AI in Education
(Artificial Intelligence)
Workshops

IN-PERSON: JAN 17 I APR 3
VIRTUAL: JAN 30
TIMES: 8:00 AM - 12:00 PM

FACILITATOR
Chad Collier I Consultant
CESA 6 Math, STEM, & Computer Science

What is Artificial Intelligence (AI)? How can it impact your daily instructional practices? We will learn about the latest information and tools related to AI, and how these tools can be used by educators in general.

OBJECTIVES

- Understand what AI is, and isn't
- Explore the different AI tools available
- Learn how AI tools can positively affect our work as educators
- Discuss and problem-solve potential challenges of AI

WHO SHOULD ATTEND?

Administrators
Instructional Coaches
Technology Specialists
Teachers

DETAILS

- Register online: **www.cesa6.org/events**
- The same workshop is being offered three times
- No registration fee for these workshops
- Two in-person dates (Jan. 17 and Apr. 3) and one virtual date (Jan. 30)

QUESTIONS?

Chad Collier I Consultant
Math, STEM, & Computer Science
