

Common Core State Standards for English Language Arts

Developing Local ELA Leaders

Presented by CESA #4
School Improvement Services

What: Training-of-Trainers Series
Where: CESA #4, 923 E. Garland Street,
West Salem, Heritage B

When: March 9, April 3, & April 19, 2012
9:00 a.m. – 3:00 p.m.
(May 17 if needed)

Goal: To provide an in-depth study of the CCSS in English Language Arts for content specialists, coaches and/or teachers who can be called upon to help lead or support the move to full implementation of the CCSS in your district. We realize that even if you choose to purchase or adopt a ready-made curriculum, it will be important to have someone who has a deep and practical understanding of the standards at each grade-band to assist teachers, answer questions, and help build capacity at the classroom level.

Content: We anticipate that each day (three or four day total) of the series will be devoted to a specific grade-band of the standards (elementary, middle, HS) and will provide participants with a solid understanding of the CCSS underpinnings, challenges, and implications for classroom practice for that particular level. Participants will be entitled to use all of the Deeper Study training materials with teachers, support staff and/or administrators in their home district.

Trainers: These workshops will be led by content specialist Debra Kroll along with CESA #4 staff using the Deeper Study materials from CESA #7. Math and ELA sessions will happen simultaneously in different rooms with different presenters. The content specialist leading this series was trained in the use of the Deeper Study materials at CESA #7. Deb Kroll is the Reading Specialist at Northern Hills Elementary School in Onalaska.

Participants: We believe the ideal candidates for this training will be those who possess leadership abilities, understand effective classroom practice, and have solid ELA content knowledge.

Teams: Districts that purchase this training package may send a team of up to three people to each of the training days. Cost for this series will be \$600 per content area. Each day of the series will run from 9:00 AM to 3:00 PM.

Registration: Pre-registration for all participants is required at www.myquickreg.com
