

Science-Aligned Literacy Practices Implementation Coaching

Expert Guidance to Move From Compliance to Commitment to Science of Reading

Partner with CESA 6 Literacy and let us help move you from mere compliance with Act 20 to a strong commitment to literacy improvement for your students! Agnostic of the training platform used, CESA 6 Literacy will help you create a system of support for teachers and leaders to bring the shifts in literacy instruction and practices to life in every classroom.

Goals

- Build internal expertise and internal capacity for continuous literacy improvement
- Support taking teacher knowledge into shifts in instructional practices
- Support implementation of science-aligned teacher practices with a new curriculum

Leadership Coaching:

- CESA 6 Literacy will guide your leadership team to create and strategically implement changes in literacy practices (supporting the teacher and leader training and/or curriculum implementation)
- We will guide principals as they observe literacy practices in the classroom to build their expertise and capacity to provide feedback and ask strong questions to promote literacy improvement

Side-by-side Coaching with Instructional or Literacy Coaches:

- CESA 6 Literacy will support the literacy/instructional coaches as they observe work with teachers to support the implementation of Science of Reading practices learned in the teacher training
- We will support coaches as they plan implementation of science-aligned teacher practices with a new curriculum implementation

Teacher Coaching:

For districts that do not have internal literacy or instructional coaches:

- CESA 6 Literacy will coach your teachers and/or teacher teams to support implementation of Science of Reading practices learned in the teacher training

Who Should Participate?

- Building principals
- Building leadership teams
- Literacy or instructional coaches
- Teacher teams
- Individual teachers

Pricing

- CESA 6 School Districts: \$2,710 per day
