

From Surviving to Thriving

Mental Health Regional Learning Collaborative (RLC)

CESA 6 is proud to host a Regional Learning Collaborative (RLC) series focused on social emotional learning, trauma, mental health, and their impact on our students and school communities. Each session will support school teams in implementing Wisconsin's Comprehensive School Mental Health Framework and will include evidence-based strategies, spotlight speakers from a district or school in Wisconsin, and time to collaborate with colleagues to collectively create healthy and safe school climates. Your learning journey is in your hands. Attend one or all of the events.

Who Should Attend?

School staff who are in positions of supporting and responding to youth and school community mental health needs. **New this year! Free attendance for students attending with a school staff member.**

Details

- Each one half-day RLC event: \$125/person
- Spring Academy only: \$225/person *
- ALL RLCs and Spring Academy - \$500/person *

The (3) Regional Learning Collaboratives are designed primarily as virtual experiences. Space and facilitation will be available at the CESA 6 Conference Center for those who prefer to engage in learning off campus.

The Spring Academy is designed primarily as an in-person experience. While a virtual option is offered, the experience may not be the same. **CESA 6 Conference Center**- 2300 State Rd 44, Oshkosh

*Includes lunch, snacks, and beverages at Spring Academy

2024-25 Lineup

October 8, 2024 RLC #1 | 8:30 - 11:00 AM

Trauma Sensitive Practices in Every Classroom

Proactive trauma-informed practices lead to reduced student behaviors, healthier school cultures and increased student and staff engagement. Participants will learn about the neuro-sequential model and its impact for both students and staff.

December 12, 2024 RLC #2 | 8:30 - 11:00 AM

Organizational Wellbeing and Staff/Student Wellness

Learn about strategies for schools to consider the impact of a healthy school climate including how to support both adult and student wellbeing as part of your broader organizational system.

March 12, 2025 | Spring Academy | 9:00 AM - 3:00 PM

Interventions and Teaming Practices

Participants will analyze existing tiered prevention and intervention strategies within an EMLSS and consider the structures to support intervention frameworks using data-driven decision making.

April 24, 2025 RLC #3 | 8:30 - 11:00 AM

Identifying Strength-Based and High Leverage Improvement Tools

Continuous improvement tools can be used throughout your comprehensive school mental health systems. Learn about how to go deeper with your strengths-focused tiered supports.

"Classroom and teaching strategies were our team's biggest takeaway. These are the vehicles to embed SEL and trauma-informed practices all day, every day." -2024 Seasonal Academy Participant
