

# Lutheran School Learning & Assessment Collaborative Series

## Moving Districts Forward

**Facilitated by: Eric Larsen**

Connect with other Lutheran school leaders in curriculum and assessment around shared learning and information sharing. During monthly meetings, Directors and Principals will learn about the continuous improvement culture in schools, timely research in education, and the current best practices in curriculum and instruction. Significant networking allows participants to work together to solve problems and help move school districts forward. Connecting with our CESA leaders in Literacy, Math, CTE, and other topics brings just-in-time learning to the group!

- This network will help new and experienced District/ School Assessment Coordinators navigate Wisconsin's assessment and accountability landscape.
- The monthly meetings will help DAC/SACs understand the next steps for every assessment and accountability change for Wisconsin schools.
- Forward, PreACT Secure, ACT, ACCESS, Dynamic Learning Maps, and local assessments like iReady, MAP, STAR, or FastBridge will be highlighted throughout the year.
- School Report Cards and accountability conversations will also be a part of the rich discussion and learning opportunities.
- Get valuable insight from our connected CESA 6 team to help you through assessment and accountability in the 2024-2025 journey.
