

CESA 6 Safe and Healthy Schools presents . . .
6 Early Stage, Highly Structured, Behavior Interventions
May 18, 2012

Presenter: Jackie Schoening, Coordinator Safe and Healthy Schools / Communities

You have classroom expectations and a classroom management system in place. For most students it works well, yet you have a couple of students who are struggling with their behavior. You know a referral is too premature but you want to help these students with their behavior and academics. In this workshop educators will work through 6 behavior interventions that will help reduce the behavior and be able to collect baseline data for future reference.

The 6 interventions are from the book Interventions: Evidence-Based Behavioral Strategies for Individual Students by Randy Sprick, Ph.D., founder of Safe and Civil Schools.

These early interventions:

- Have been shown to be effective based on multiple studies. They are the easiest interventions to implement.
 - ✓ Planned Discussion
 - ✓ Academic Assistance
 - ✓ Goal Setting
 - ✓ Data Collection and Debriefing
 - ✓ Increasing Positive Interactions
 - ✓ STOIC Analysis and Intervention
- Can be implemented without needing highly specialized training. Interventions are presented in the order of implementation complexity
- Becomes an essential tool in the teacher's behavioral tool kit
- Are implemented prior to seeking help from either a school team or an interventionist unless the student's behavior is so physically dangerous or severely disruptive that seeking special assistance in a Code Red emergency is necessary.

Audience:

Any Grade Level Educator dealing with student behavior issues
