1979 Milky Way, Verona, WI 53593 - P.608.271.9000

(*Please see the attached map for building and parking locations on the Epic Campus.)

March 20 is designed to be a general information day which includes:

- Introduction and overview
- Drugs in society
- Policy, procedures, and roles
- Drug identification
- Overview of alcohol
- Drug categories and their observable effects
- Issues involving the law
- Contacting parents
- References

March 21 is designed to be a skills training day which includes:

- Eye examinations
- Vital signs
- Divided Attention Tests
- Poly-drug use
- Assessment Process

Each day is 8 hours.

Lunch is included both days!

The trainer is Officer Jeff Meloy. Jeff is a certified Drug Recognition Expert (DRE) and is a certified trainer in the DITEP Model.

The purpose of this two-day training is to provide a systematic approach to recognizing and assessing individuals in the academic environment who are using and are impaired by drugs, in order to provide early intervention. The subject matter presented touches upon some, but not all of, the factors a Drug Recognition Expert (DRE) considers when examining a drug-impaired individual.

The training will cover:

- Definition of "drug"
- Concept of drugs that impair in the academic environment
- Drug choice within a community
- Role of divided attention tests in assessing impairment
- Observable effects of each of the seven drug categories
- Observable effects of various drug combinations
- Medical conditions that appear similar to drug impairment
- Appropriate procedures for dealing with drug impaired or medically impaired individuals
- Importance of policies and procedures for dealing with drug impaired individuals in the academic environment
- The assessment process

Cost:

\$60 for both days if district is member of the Comprehensive Youth Development (CYD) program.

-OR- \$75 if district or agency is not member of CYD
