LLI Red Grade 3 Building Upon LLI K-2 System

- Difference between the two systems
- Data systems and assessment procedures for selection, discontinuing, and monitoring progress and sustained gains
- Weaving the teacher support tools with the lesson guides to meet for each group's specific need
- Matching teacher language and lesson activities to capitalize on an asset (rather than deficit) model to move students through gradients of knowledge and behaviors towards proficiency

LLI is a small group intervention for children in Grades 3, who find reading and writing difficult to learn. The children selected for the interventions are the lowest achievers in literacy in their grade level and are not receiving another intervention.
