

*CESA #4 Title I
Network*

PRESENTER:

Margo Southall

Audience:

Teachers Gr. K-3

TWO-DAYS – October 4 & 5, 2012!

Differentiated Literacy Centers In Action! Make & Take Workshop

Gain a teacher toolkit of tiered independent practice tasks that focus on comprehension, fluency, word study and writing correlated to the Common Core State Standards. Examine and construct centers designed with multiple levels of challenge that enable students with different learning needs to gain access to key concepts, skills, and strategies. The supports incorporated in these centers make the difference between students' time being well-spent or off-target! Streamline the planning and preparation with a set of core weekly tasks and choice boards that are aligned with the instructional goals for whole-group and small-group lessons.

6 Key Components of the Workshop:

1. Building the Foundation for Success
2. The Reading Comprehension Center
3. The Fluency Center
4. The Word Study Center
5. The Writing Center
6. Putting it all Together

In this two-day “make-and-take” format, teachers will plan and construct tasks for each literacy center. The make-and take option is designed to ensure transfer to classroom practice. The workshop format includes a comprehensive resource book for each teacher participating in the training, including planning guides, tracking forms and center materials.

Cost: \$50.00 per person (includes both days) Time: 9:00a.m. to 3:30p.m.
