Do you as a Title I or Special Ed. teacher feel out of the loop when it comes to the Common Core State Standards? Have you had time to explore the new standards in English/Language Arts and Math to ensure that your instruction is connected to the grade level expectations of your students? Today is a full day of working with the CCSS. Please bring along a copy of both the English/Language Arts and Math standards. Conversations will be facilitated and work time allowed for your new learning. Sponsored by: State Title I Network.

Learning Outcomes:

Participants will...

1. Explore the CCSS in English/Language Arts.
2. Explore the CCSS in Math.
3. Identify what kids need to know and be able to do and identify how that will effect their classroom instruction.
