

NWEA-MAP Level 2 Training

Level 2 – Stepping Stones to Using Data

Workshop Description: This one-day workshop is designed to help teachers and building administrators understand and interpret assessment report data for the purpose of improving student learning. Understanding test data is essential for districts to be able to gauge the effectiveness of programs. With this understanding, educators can make better informed decisions related to school and classroom improvement programs.

In the training participants will:

- Learn how to access, analyze, and interpret data
- Learn how to use Instructional Resources reports
- Preview NWEA resources
- Plan together to use data in on-going work

Expectations for the Participants:

Building Local Expertise Model - This model will provide district staff (e.g., instructional leaders, lead teachers, instructional coaches, administrators) with tools and resources to teacher concepts and content to others within their school and district.

All Staff Model – Staff new to your district, new to MAP, or in need of a refresher will learn how to use MAP data to inform instructional decisions.

NOTICE:

CESA #3 is implementing a new event registration process and service tracking system for the 2009-10 school year. This program will allow you to register (become a member) once and your information will be saved for future registrations. You will be able to view reports based on workshops/trainings that you have attended through CESA #3 for professional development reporting, etc. To register on the site you will need to answer some basic questions. This is one time only and you will then be given a user name and password for future registrations.

All on-line registrations are tentative until a purchase order is received by the CESA #3 business office. Please follow your local district procedure to complete a purchase order for registration completion.
