

Tech Plan Writing Workshop

DPI has changed the way in which your district will submit your three year Information and Technology Plan. They will only be accepting digital plans (no written plans are being accepted).

There is a template available that will help your district in the writing process for your plan. All districts with a plan expiring in June 2013 are encouraged to bring a writing team to this workshop. We will go over the components of the plan and you will receive a copy of the template. Your writing team will then have the time and opportunity to work on your plan.
