- 12:30 Teen Intervene Training**
- 3:00 Adjourn**

Teen Intervene is an early intervention program targeting 12- to 19-year-olds who display the early stages of alcohol or drug use problems (e.g., using or possessing drugs during school) but do not use these substances daily or demonstrate substance dependence. Integrating stages of change theory, motivational enhancement, and cognitive-behavioral therapy, this intervention aims to help teens reduce and ultimately eliminate their alcohol and other drug use. The program is administered in a school setting by a trained professional in two or three 1-hour sessions conducted 10 days apart.
