CCSS/Smarter Balanced: How to Teach Elementary Keyboarding.

The new Common Core State Standards and Smarted Balanced Assessment will require a certain level of keyboarding skills by students in elementary grades. We will define the need, outline the standards, discuss who can (and who cannot) teach elementary keyboarding, and explore ways in which students can be prepared to enter text efficiently.

This workshop is designed for elementary classroom teachers and administrators

The following sample keyboarding programs will be demonstrated and available for hands-on exploration:

- Type to Learn
- Typing Ace
- Qwerty Town
- Dance Mat Typing
- Typing Time
- Bernie's Typing Travels
- MicroType5
