THE WHAT:

The LLI Red System is designed for Grade 3 students who are reading below grade level. The Red System may also be used to help children at higher grade levels who are reading below level Q. This system can also be used effectively with special education children for whom the activities meet the educational program specifications. Designed to bring children up to grade-level performance in as little as 18-24 weeks, LLI is a powerful, research-based early intervention program that can prevent literacy difficulties before they turn into long-term challenges.

THE WHERE:

CESA #4

923 East Garland Street, West Salem

THE WHEN: March 21, 22, and May 9, 2013

Workshop 8:30-3:30, Registration 8:00-8:30
