

Learn how to understand and solve the puzzle of human behavior through **Real Colors**

Monday, November 12, 2012

8:30 am-3:00 pm (Registration and Refreshments at 8:00 am)

CESA #4, 923 East Garland Street, West Salem, WI

A Real Colors workshop offers essential tools that can help participants meet challenges and achieve successful relationships with people you interact with on a daily basis.

In a **Real Colors** workshop, participants will:

- Discover personal strengths while recognizing the strengths of others
- Acquire skills to communicate more effectively
- Learn to appreciate and value the viewpoints of others
- Discover the different ways individuals process information
- Learn how to build instant rapport with people
- Learn successful methods of speaking to different people
- Opportunities to experience/practice colors other than their own

The **Real Colors** Personality Instrument is a simple, intuitive system for identifying the four temperaments (Blue, Gold, Green, or Orange). It is one of the most widely used temperament tools available today and provides a hands-on practical way to think about and interact with people through a temperament lens. The workshop is presented in a fast, fun, interactive format where participants learn how to quickly identify their own temperament or "color" and that of others. Using this powerful knowledge, they can develop more effective communication skills, build better relationships, and discover their own personal strengths.

Cost: \$75.00 (includes lunch, refreshments, and a workbook)

Register Online by Wednesday, November 7:
