Introduction to

Student ePortfolios

Using

C·E·S·A 10
Cooperative Educational Service Agency

Tuesday, December 11, 2012

9 AM – 3 PM

CESA 10

Definition: *A portfolio is a purposeful collection of student work that exhibits the student's efforts, progress, and achievements in one or more areas. The collection includes student participation in selecting content, the criteria for selection, the criteria for judging merit, and evidence of student self-reflection.*

Audience: CESA 10 educators whose districts subscribe to ETS-CSD services (see list on right).

Description: This is a **beginning level workshop for creating student portfolios using Google sites.**

Participants in this workshop will explore the components of Google Sites—part of the *Google Apps for Education* suite. The focus will be creating and organizing student portfolios to showcase students' work as well as activities. The student's portfolio is suitable for learning and assessment, as well as applying to colleges or for prospective employers. Students can create their portfolio in their "school's Google domain" and transfer it to a private Google account when they leave high school. *Lunch will be served.*

Please bring:
- ☑ A computer with Internet wireless access.
- ☑ A Google account (and password), either in your school's domain or the public Google.
