

CURRICULUM COMPANION CAMP 2013: MATH AND/OR ELA

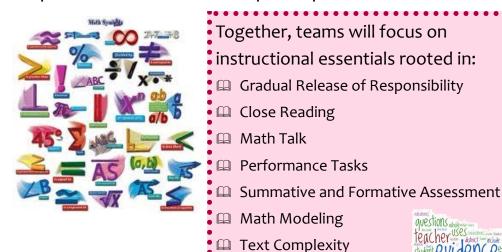

CESA #4, 923 East Garland Street, West Salem, WI ELA: May 13 and 14; June 10, 11, and 12, 2013 Math: May 15 and 16; June 10 and 11, 2013

In these workshops, participants will receive a hands-on introduction to the format, layout, and user functions of the Curriculum Companion (CC) from CESA #7.

Once users are comfortable with the tool and technology platform, the remaining time will be available for district or grade-level teams to incorporate local resources into the core modules/units.

The goal is for these teams to acquire the knowledge and skills necessary to localize the CC so that it is ready for use by classroom teachers.

CESA #4 facilitators will provide ongoing support and just-in-time information to the work teams throughout the days and will assist in the creation of an action plan to complete the curriculum development process.

For 2013-2014 Level 1 Curriculum Companion Implementation Support contracting districts there will be no charge for up to 6 team members registering for that contracted discipline (1A=ELA or 1B=Math). Additional team members may attend at a cost of \$250 per person. Districts that did not purchase Curriculum Companion Implementation Support may attend at a cost of \$400 per person.

**Fees will be adjusted when district contracts are completed and received.
