Intro to Google Tools for Educators: The Best Features for Busy Teachers

Tuesday March 12, 2013

Instructor: *Jim Welander*

Google has become much more than a good search engine. Among all the web-based tools out there, it can be hard for teachers to know which ones work best. Google has made it easier by creating some very powerful, and FREE web tools. Whether you're teaching Spanish or social studies, mathematics or music, there's a free Google feature that will make your lessons more dynamic and your projects more organized. Some of the most useful classroom tools will be introduced, as well as classroom activities that go along with the tools.
