

Pilot Training: Reviewing K-12 Universal Mathematics Instruction Three-Day Team-Based Session

This training will guide teams through understanding the demands and shifts required of the Common Core State Standards for Mathematics. We will present and discuss what's being asked of students and examine what is needed system-wide to effectively support them.

Audience

- District teams of three or more, including K-12 grade-level teachers, mathematics instructors/ specialists, mathematics coaches, special educators, instructional leaders, building administrators, district curriculum administrators. (*We recommend a team of six, with representation from elementary, middle, and high school levels.*)
- District teams must include a district and/or school-level administrator.
- All district team members are required to attend all three days of the training

Objectives

- Investigate the role of high quality universal mathematics instruction within Wisconsin's Rtl framework
- Understand the need for a strong systemic foundation built upon common beliefs on mathematics instruction and the Common Core State Standards
- Examine recommended practices from the National Council of Teachers of Mathematics (NCTM) and the Common Core State Standards in Mathematics (CCSSM), including instruction, instructional time, grouping, and environment
- Apply understandings to current district universal mathematics program and create an action plan for improvement

Preparation

Participants should bring documentation of their current mathematics programs, practices, and strategies used to deliver K-12 universal mathematics instruction.

Cost

\$150 per participant. Fee includes breakfast, lunch, snack, materials and texts for all three sessions.

Dates and Location

May 15, 16 & 29
Country Springs Hotel, Waukesha
