

# BadgerLink

**Wednesday, April 10, 2013 - Wednesday, May 1, 2013**  
**Online Graduate Course**

### Presenter:

Paula Walser, CESA 6 Director of E-Learning

### Description

BadgerLink is a safe Internet environment that connects to databases with thousands of magazines, newspapers, and books online not available through regular Internet search engines. Wisconsin residents access them at no charge through a special program of the Wisconsin Department of Public Instruction.

BadgerLink materials have been selected so that educators can be confident that only quality information from recognized publishers or sources is available. When users search BadgerLink, they can be assured that the responses are reliable and current. Children will not be subjected to results with thousands of irrelevant and possibly inappropriate responses that a Google-type search may produce.

### Workshop Objectives

- Learn how to navigate through a rich collection of FREE resources available through the BadgerLink site.
- Join an online exploration and learn how these resources can enhance your classroom instruction
- Explore Wisconsin's connection to the world of information!
- Develop search skills and learn strategies to effectively locate and integrate some of many amazing resources..

### Who should attend?

- K-12 regular and special educators, school leadership teams, and school building leaders
