

# Enriching Your Gifted & Talented Reading Instruction in Grades 6, 7, and 8

Three FREE individual grade level workshops for gifted and talented educators will be held at CESA 8 Office on:

**March 19, 2013 — 6th Grade**

**April 9, 2013 — 7th Grade**

**April 25, 2013 — 8th Grade**

Education is a changing world. In the midst of learning and applying the English-Language Arts Common Core State Standards, we are also expected to differentiate our instruction and have ALL students – from the lowest to the highest – show growth. There is often support for struggling learners, but what about your gifted and talented students who deserve to be challenged too?

In this conference, you will

- view 4 unique units built around the Common Core Standards with general education overviews.
- practice specific activities and lessons intended to challenge your gifted and talented students.
- network with other ELA educators to gain ideas and contacts for future reference.
- **leave with resources and materials that are classroom-ready.**

Don't face the challenges in English-Language Arts education alone. Join us at CESA 8 curriculum support for your gifted and talented students.

Participants will receive material, continental break-fast, lunch, and their district will receive up to \$100 reimbursement for sub costs.

Each of these workshops are limited to 20 participants so register early.

▶ **FREE GT WORKSHOPS**

▶ **9:00-3:30 PM**

**CESA 8 Office**  
223 West Park Street  
Gillett, WI 54124-0320
