

Universal Design for Learning Framework

CESA #3

Friday, April 19, 2013

12:00 p.m. – 3:00 p.m.

11:30 a.m. – 12:00 p.m. Lunch Provided

Universal Design for Learning (UDL) is a set of principles for curriculum development that gives all individuals equal opportunities to learn. UDL provides a blueprint for creating instructional goals, methods, materials, and assessments that work for everyone – not a single, one-size-fits-all solution but rather flexible approaches that can be customized and adjusted for individual needs.

This training will focus on:

- Understanding the history, purpose, and research behind the UDL framework
- Exploring the UDL principles, guidelines, and checkpoints
- Exploring multiple ways of access, assessment, and engagement using digital media and tools
- Utilizing current resources available to support UDL

About the presenter:

Jolene Troia is the Education Consultant for Universal Design for Learning and Assistive Technology on the Special Education team of the Wisconsin Department of Public Instruction. She holds a bachelor's degree in occupational therapy from UW-Madison and a master's degree in Adaptive Education from St. Norbert College. She has extensive experience serving students with disabilities from ages 3 to 21. Jolene is a nationally certified ATP (Assistive Technology Professional) through RESNA (Rehabilitation Engineering and Assistive Technology Society of North America). Jolene has over 14 years experience in the field of special education.

No Cost to Attend!
