

iPad Apps for SPED

June 25, 2013

12:30-3:30

CESA 5

\$75

Are you comfortable with your iPad....adjusting settings for students including Guided Access, VoiceOver, Speak Selection, but overwhelmed by all of the apps in the App Store? This session is for Special Educators who are looking for free and paid apps to meet the needs of their students. We will look at a sampling of apps for communication, behavior, cause-effect, apps for students with ASD, text readers, apps to support writing, apps to support curriculum and so much more! This quick paced session will explore the world of apps for students with special needs. Bring your iPad or iPod Touch, an iTunes username and password and any apps that you want to share!

Judi Cumley, CESA 5 Assistive Technology Consultant and Certified Apple Trainer
