Social Relation Skills and Strategies for Students With High Functioning Autism and Asperger's Syndrome

This training will provide participants with an in-depth focus on the primary area of difficulty for people with ASD, social relation skills. Particular focus will be given to "social understanding", a significant feature of social development which is often absent or developmentally delayed in people with Asperger's Syndrome/High Functioning Autism. Numerous tools and resources will be provided to address the various social thinking (learning) needs of people with ASD.

This training will address the following:

- Define the various features and characteristics of social relation differences.
- Identify the educational implications, including suggestions for IEP writing, for social understanding differences for students with Asperger's Syndrome/High Functioning Autism.
- Identify strategies to enhance development of social relation skills for people with Asperger's Syndrome/High Functioning Autism.

Wisconsin Teacher Standards Emphasized in this Session:

WTS2 - The teacher understands how children with broad ranges of ability learn and provides instruction that supports their intellectual, social, and personal development.

WTS3 - The teacher understands how pupils differ in their approaches to learning and the barriers that impede learning and can adapt instruction to meet the diverse needs of pupils, including those with disabilities and exceptionalities.

State Performance Plan Indicators Emphasized:

IND5—Environment—Percent of children with IEP's removed from regular class.

AUDIENCE:

Educational & community professionals, parents and family members who support children with Autism Spectrum Disorder
PREREQUISITE: An understanding of the features and characteristics of ASD
PARENTS/FAMILY MEMBERS
