Time: Check-In 8:15; 8:30 to 3:00

Location: CESA #2, 1221 Innovation Dr.
Whitewater, WI 53190
Facilitator: Kevin J. B. Anderson, Ph.D.

A CSN (CESA Statewide Network) Wisconsin Initiative

WISEdash offers new opportunities to enhance data inquiry for educators. Bring your school improvement team to participate in this two-day workshop using the new WISExplore inquiry process. This active retreat will enhance your leadership team's skills with "WISE" data tools as they inform your school's improvement direction.

Participate in a guided process to …

- use state data tools and the WISExplore process
- explore and analyze achievement, growth, attendance, gaps, post-secondary and other state-available data to the student detail level
- determine data questions, document data findings, and formulate data inferences
- inform the school improvement process, with connections to annual goals, AMOs, SLO focus areas and strategic action plans

Tentative Agenda

Day 1	Day 2
- Overview, purpose & vision - Role of the Leadership Team - Effective and efficient data work - Navigating, exploring and analyzing achievement - Navigating, exploring and analyzing growth	- Navigating, exploring and analyzing gaps - Navigating, exploring and analyzing engagement - Navigating, exploring and analyzing post-secondary data - Facilitating data work with other staff - Planning ahead
