43 Participants/25 Returned Evaluations	Excellent (5)	Good (4)	Neutral (3)	Fair (2)	Poor (1)
Overall Rating of the Presenter(s)	20	5			
Overall Workshop Quality	16	8	1		
Workshop Content	17	8			
Workshop Process	16	9			
Workshop Materials	14	10	1		
Facility	13	10	1	1	

Please provide your opinion about the following statements:	Strongly Agree (5)	Agree (4)	Neutral (3)	Disagree (2)	Strongly Disagree (1)
Attending the workshop helped me meet my professional goals.	9	12	4		
The information presented was relevant to my work.	10	12	3		
This workshop increased my understanding of the subject matter.	16	8	1		
I plan to use what I've learned today in my classroom/school.	13	12			

What other topics, issues, trends or concerns would you like CESA #12 to address through future personnel development opportunities/ Additional Comments?

I wish there was an association of business and government agencies that actively connected schools with real world learning opportunities. * I would like to know more about alternative salary schedules * To pass on I know what a good job tech colleges are doing but 4 year programs are not giving their teacher ed enough basics to teach basic HS students and then move on to these specialty areas. So to send interested students on to 2 or 4 year institutions, we need Mig Tip Plasma arc hands-on then CNC Robotics etc. * I think it's important to continue with college ready opportunities for K-12 * Teacher Compensation models * Keep this workshop things going. This was great!
