WISExplore

Date Inquiry Process

July 24 & 25 – Middle & High School Teams
 August 8 & 9 – Elementary School Teams

A CSN (CESA Statewide Network) Wisconsin Initiative

WISEdash and other state data tools offer new opportunities to enhance data inquiry for educators. Bring your school improvement team to participate in this two-day workshop using the new WISExplore inquiry process with state data indicators for your school. This active retreat will enhance your leadership team’s skills with “WISE” data tools as they inform your school’s improvement direction.

Participate in a guided process to ...

- Use state data tools and the WISExplore process
- Explore and analyze achievement, growth, attendance, gaps, post-secondary and other state-available data to the student detail level
- Determine data questions, document data findings, and formulate data inferences
- Inform the school improvement process, with connections to annual goals, AMOs, SLO focus areas and strategic action plans
