Presenter: Mary Ann Hudziak

Description

*New math standards - content and practices.
New assessment of accountability. So many changes. I am not sure if I am adjusting.*

If you have had these thoughts, then join us for *Teaching for Mathematical Understanding in Grades 7–12*. This workshop will address "modeling" your way through these questions, and more. We will examine how assessments can be designed and utilized in order to determine the most efficient instructional strategies as well as to measure student understanding.
