

CESA 6 Math Center:

Dr. Timothy McNamara
Dr. Deb Kneser & Cheryl Simonson

Meeting Demand for 21st Century Learning

This professional development is designed to be an ongoing process to improve mathematics instruction at the classroom level by:

- teaching and receiving high quality instructional feedback from Dr. Tim McNamara and peers,
- observing and modeling mathematical coaching at the classroom level,
- applying a coaching model for mathematics instruction,
- fostering leadership for the implementation of a coaching model for mathematics instruction, and
- supporting a continuous improvement model at the classroom, building and district levels.

Change is complicated...

- Instructional coaching can help alleviate some of the burden of change.
- Instructional coaching is on-site professional development who teach educators how to use proven teaching methods.
- Instructional coaching is part of the change process. Coaches work one-on-one with teachers to make it easier to adopt the instructional methods that can make a difference to students' success.

Dates: Teachers participating will be involved in the Math Center 6-8 days throughout the year. The number of days is dependent on instructional coaching schedules and teacher availability. Semester 1: Teachers will be engaged in the coaching process and receive instructional feedback. Semester 2: Teachers will be facilitating/practicing coaching and giving instructional feedback.
