

# Flipped 411

## Creating Effective, Engaging Flipped Learning Environments

**Who Should Attend:** K-12 Educators and Administrators

*Flipped learning is much more than merely having students watch videos outside the classroom; it's the intentional pedagogy of creating a more effective and purposeful use of the classroom time while engaging students into lessons outside the classroom walls. This well-received workshop offers tips, tools and techniques for moving your instruction toward a blended, hybrid model. Engaging students and increasing literacy are essential for effective instruction—flipped learning can offer you that. Come fill your technology toolkit with digital literacy tools for flipping your lessons to meet your students' needs! We will explore Snagit, Camtasia, Google Sites, YouTube, Schoology and MANY more tools you can use to flip your classroom.*

**Prerequisite:** Basic computer skills

(1) Graduate Credit through Viterbo University will be available for this workshop upon receipt of additional registration and tuition payment of \$200.00 the day of the workshop

**Cost:** \$150.00 per person per session  
(includes materials, light breakfast and lunch)
