EPICs will have the opportunity to choose workshops that best suit their needs in supporting the Effectiveness Project (EP) in their district. The morning will be devoted to workshops based on regional needs and “must knows” for a successful beginning of the year EP implementation.

Dates for 2013-14 EPIC Meetings

- November 19, 2013
- March 10, 2014
- May 6, 2014

Effectiveness Project Pilot Year 2012-13 Audit Results

Results from the Effectiveness Project audit show our partners are valuing the project and the results. The research results include what is working from the field and seven overarching themes related to challenges from learning through implementation.

MyLearningPlanOASYS Updates, Features, and Processes ~ What’s New in Pilot Year Two?

This session will explore MLP OASYS System updates and added new features. We will also cover “Must-knows” for a successful beginning of the year. Session will conclude with Open Café for questions and sharing among districts.

Leading Teachers into Effectiveness with a Coaching Hat:

A great deal of research has found instructional coaching as a valuable practice to improve instruction and learning. This session will introduce the concept of the principal acting as an instructional coach as well as an evaluator in the building to lead your school into effectiveness.

Supporting Educational Specialists with SLOs:

This session is designed to provide resources, examples, and conversation for Educational Specialists to write and implement SLOs through a program lens. Participants will learn how to include Educational Specialists positions to the “bigger picture” of continuous improvement and be given examples of SLOs for varied positions.
