The SPARC-W model is useful in presenting a self-evaluation of your student support system; preparing/analyzing data results that guide programming for all students in their academic, personal/social, and career goals; promoting your program to your school administration, school board, community partners, businesses/industry, and parents/guardians; preparing reports for school accreditation, grants, or awards recognition; and implementing the final phase of the WCSCM-Level III.*

*School districts and/or school buildings are encouraged to participate in Level III annually to revise the SPARC-W! For more information about SPARC-W please see this link:*
