**What is the Supporting Players© Training?**

The training is a two-day intensive workshop. Your students will be guided through a creative process that helps them build performance skills, bond as a team, and create moving, entertaining skits designed to be presented in your community. They learn the basics of: building a character, improvising short scenes, and effectively staging them.

***Please do register early!!  
Training is limited  
to 28 students.***

**Objectives :**

- Students learn the SIX STEPS OF EFFECTIVE LEADERSHIP
- Students participate in team-building interactive improvisational acting and skill building exercises that will help them to bond as a team and prepare for scene work.
- Students identify several topics of concern in their community.
- Working as a team, and implementing the SIX STEPS OF EFFECTIVE LEADERSHIP, students develop 1-2 scenes that will
  1. identify the issue,
  2. explore the problem,
  3. propose solutions.
- Students learn a simple approach to use when facilitating a discussion with the audience about the topic.
- Students perform skit(s) for the assembled group and receive a video of the material they developed.
