

## Professional Staff Development

# A Guide to Wisconsin Career and Technical Education in Family Consumer Sciences and Health Sciences September 19, 2013

*Sponsored by: DPI and CESAs 3, 4 and 10*  
**Hosted by CESA 4**  
923 East Garland St.  
West Salem, WI 54669

Who: All Family and Consumer Sciences and Health Science Instructors

What: Professional development training on the state standards

Where: CESA #4 for CESAs 3, 4 and 10 (other CESAs also welcome!!)

Time: 9:00AM to 3:15PM, 8:30AM Registration/Continental Breakfast

This one day workshop will assist Family and Consumer Sciences teachers and Health Sciences teachers in alignment and development of standards throughout the PK-12 system in three bands by the end of grades 4, 8, 12. The standards guide will

- Provide a vision for student success and guiding principles for teaching and learning.
- Improve Career and Technical Education for students and for communities.
- Assist Wisconsin educators and stakeholders in understanding and implementing the CTE content, FCS, and Health Science standards in becoming career and college ready.

*Program leaders will find the guide valuable for making decisions about:*

- program **structure and integration**;
- curriculum **redesign**;
- staffing and **staff development**;
- **scheduling** and student grouping;
- **facility organization**;
- **learning spaces** and **materials development**;
- **resource allocation** and **accountability**; and
- **collaborative work** with other units of the school, district, and community.

Guides will be provided for each participant plus a newly developed guide with connecting activities for standards in Nutrition and Wellness/Family and Consumer Sciences at the Middle School level.
