September 23, 2013

1221 Innovation Drive, Whitewater, WI 53190

- 8:30 AM Coffee, juice, snack - Networking
- 9:00 AM Welcome - Introductions
- 9:20 - 10:10 AM Member Breakout Discussions regarding 2013-2014 District Initiatives
- 10:10 AM Networking
- 10:15- 11:15 AM Ron Amenta
Mobility Specialist, Cisco
ramenta@cisco.com [402-598-4185](tel:402-598-4185)
- Wireless networks can enable innovative education models such as 1:1 initiatives, digital curriculum, flipped learning, and “bring your own technology” (BYOT) programs.
- While the potential of wireless is being demonstrated across an ever-growing list of K-12 institutions, designing and deploying a robust, secure K-12 wireless network requires careful planning and research.
- We invite you to join us for a discussion of best practices for implementing a successful wireless network for K-12 schools. Topics include:
- Bandwidth: supporting the increasing use of digital content and video
 - BYOT: securely managing multiple devices per user
 - Security: dealing with identity management, malware, viruses, and inappropriate content
- Learn from the experiences of our guest speaker, Ron Amenta. Ron has over 25 years of technology field sales and field engineering experience, with particular strengths in wireless solutions and vertical business relevance. Mr. Amenta worked 8 years at Apple and is now currently a Mobility Specialist with Cisco Systems supporting education and commercial accounts across an 8 state territory. Having joined Aironet/Cisco in 1998, Ron has been a part of the WiFi revolution from its beginning and first delivered education 1:1 installs as early as 1999.
- 11:15 AM Sharon Webb, CESA #2, Instructional Technology Consultant
- Upcoming Events and Initiatives at CESA #2, DPI and around the State

Free - CESA 2 Instructional Technology Service Members

\$35.00 - Non Instructional Technology Service Member
