

Project Lead The Way

Grant Meeting

When: September 6, 2013

Where: CESA 6 Conference Center (2300 State Road 44, Oshkosh)

Time: 2:00 - 4:00 pm

Fee: No cost to participants

Project Lead The Way (PLTW) is pleased to announce new funding available to schools made possible by funding from the Bemis Company. Schools that are interested in learning more about the grant process and implementation should plan to attend. The grant is intended to assist schools that are interested in implementing new Project Lead The Way (PLTW) programs by partially offsetting the cost of required classroom supplies, equipment, and teacher training essential to implementing the curriculum.

During this meeting participants will gain specific insight into the grant application and completion process.

Grant is for up to \$35,000 for new High School Pathways to Engineering Programs interested in implementation during the 2014-2015 school year.

Online registration available at: <http://login.myquickreg.com/event/event.cfm?eventid=7645>
