

## Ethical decision-making worksheet

### Considerations

### Thoughtful analysis

What is the problem in the context of ethical *principles* (beneficence, non-maleficence, justice, autonomy)?

---

What *realm* is primary to this issue?

**Individual:**

**Institutional:**

**Societal:**

---

What are the relevant *facts*?  
Do you have all the information you need? If not, where can you get it?

---

Who are the *stakeholders* and what matters most to them?

Considerations

Create a course of action considering intended and unintended consequences.

Thoughtful Analysis

---

Determine if further action could be taken to prevent problems like this from occurring in the future.
