Customizing & Using Proloquo2Go v. 3
October 25, 2013
8:30 AM- 12:00 AM
CESA 5
626 E. Slifer St., Portage

$75

Now that Proloquo2Go is on the device (iPad/iPod Touch/iPhone), what do you do? Did you know that the newest version is switch/scanning accessible? Are you a little overwhelmed by the features, customizing for student(s) and how to save and back up your changes? How can you make this app functional for your student to support communication and curriculum? How can you EASILY make it grow with the student?
This hands-on session will show you all of the above and more! Participants should have the newest version of Proloquo2Go (v. 3) on an updated device (iOS 7) and be comfortable with navigating and using the iPad.

Please register at myquickreg.com. Questions regarding the session? Contact Judi Cumley, cumleyj@cesa5.org
