**Comprehensive training on  
the promise of restorative practices.**

**Participants will:**

- Gain a thorough understanding of the principles of restorative practices
- Experience and be ready to implement two major components: circling and restorative conferencing.
- Review and edit the discipline language in their school handbook and review and revise circling and restorative conferencing materials for their school
- Plan a pre-service presentation on restorative practices
- Draft correspondence to various audiences who will be involved in implementation in their district
- Create an individualized plan for implementation
