

BadgerLink

Online Course

4-Week November 12, 2013 – December 12, 2013

BadgerLink Resource Exploration is an online course for educators, designed for educators to learn to effectively use BadgerLink's resources to enrich instructional programming. This course is designed to help K-12 educators harness the power of www.badgerlink.net to enhance student learning.

Participants in this four-week course will explore Wisconsin's connection to the world of information! They'll find online activities that improve student learning and compliment current curriculum. Participants will also explore in depth the BadgerLink web site (<http://www.badgerlink.net>) and the many web sites, not often found in a traditional search, to find standards-based Internet resources appropriate for their classroom and professional development.
