

Preparing CTE for 2014-15

As the 2014-15 school year rapidly approaches, there are many expectations that our Career and Technical Educators need to meet. Together at CESA, we are preparing a series of trainings for this group to help prepare them for this academic year. During this academic year, educators will be expected to write student learner objectives as part of the new evaluation system. For a CTE teacher to write an accurate SLO, they need to have data gathered from high quality assessments. High quality assessments are built from a solid standards based curriculum which is where we want to start!

SCHEDULE

(detailed agendas will be sent just prior)

Day 1: January 14, 2014

"Disciplinary Literacy and CTE Standards"

Spend the morning focusing on the implementation of disciplinary literacy standards in CTE courses and the afternoon focusing on the implementation of NEW! CTE standards.

Day 2: February 11, 2014

"Curriculum Audit"

Gather with regional colleagues to finish mapping the CCSS and CTE standards throughout your courses. Follow an auditing process to determine if your curriculum maps are aligned.

Day 3: March 19, 2014

"Assessment Development"

With standard based curriculum maps in our hands, educators will begin developing standard based assessments that will help them gather data for progress monitoring and the SLO's.

Day 4: August 6, 2014 (tentative date)

"CTE and SLO's"

Learn about the NEW! Evaluation system for educators, analyze your data to determine school/district need, and prepare yourself for writing SLO's.

Day 5: August 7, 2014 (tentative date)

"Writing SLO's"

See samples of SLO's and write your own in preparation for the October 31st deadline portion of Educator Effectiveness.

Day 6: January 8, 2015

"Checking Progress"

Gather to discuss curriculum, assessments, and Educator Effectiveness progress.

Please join us for a series of trainings that will help educators prepare for the 2014-15 school year. These trainings are free for CAI A and B service districts and Carl Perkins Consortium (these districts will also receive reimbursement for subs and mileage for one car per district for the 2013/14 school year trainings-budget pending for the 2014-15 trainings). The cost for all other participants is \$125 per session. Registration is open on myquickreg.com

Educators MUST bring data to the August trainings to determine need for Educator Effectiveness Plan!

Goal: Help educators gather and develop the necessary components needed for a successful 2014-15 school year

- objective 1: Create a usable standards based curriculum map
- objective 2: Create assessments that support the curriculum AND gather appropriate data for educator effectiveness
- objective 3: Analyze department data and create SLO's for start of the fall educator evaluation system.

"Assessment with Steven Ventura"

Join us for a free 1 hour webinar to learn more about developing high quality assessments that support a universal curriculum in your district.
