Your current fall PALS kindergarten data will be used to form core instructional literacy groups. In addition you will gather important diagnostic information about your students to form intervention groups within your RtI system. Both the Electronic Lesson Plans and PALS Quick Checks will be reviewed. Specific discussion will take place regarding the Concept of Word subtest. Time will be provided for discussing and writing instructional plans as well as networking with other districts. You will also learn how to share your data with your district team.

Audience: Kindergarten classroom teachers, Title I teachers, special education teachers, ELL teachers, reading specialists and literacy coaches and coordinators are welcome to attend.

NOTE: Participants should bring a laptop. Fall kindergarten PALS data should be entered into the Online System prior to the workshop.
