# THREADING ACCESSIBILITY THROUGH IPADS, ANDROIDS, CHROMEBOOKS, COMPUTERS AND THE WEB

Do you need to provide consistent accessibility to content such as docs, PDFs and eBooks while moving between a variety of platforms and mobile tools?

In this scenario based session, learn hands-on how to provide a continuum of accessibility to the same materials when moving between multiple platforms such as iPads, Web apps, Android, Google Chrome, Chromebooks and computers. Covered will be text to speech, switch access, visual support to e-content, accessibility feature settings for eBooks, and which file formats and applications play well between all environments. Learn how to use browser add-ons, push technology, transfer options, broadcasting your computer or iPad to other devices, Switch Access to eBooks on iPads/Android and more! **BYOT** (Bring Your Own Technology) and a laptop with the Chrome web browser installed with permissions to install add-ons, extensions and apps.

DECEMBER 9, 2013
8:30 AM – 3:30 PM
@ CESA 5
