

Smarter Balanced for Teachers

Are You and Your Students Ready?

This workshop is intended for teachers (classroom and specialists such as ELL, Title I, Literacy, Special Ed. etc.) who work with students in grades 2-8 that will take the Smarter Balanced Assessment in 2014-2015. We encourage schools to send teams of teachers who will learn together and bring back the information to build Smarter Balanced Assessment capacity within the school or district.

Participants will:

Learn how the CCSS are embedded in the assessment items

Examine practice items and item scoring

Consider how to ready students for Smarter technology demands

Discuss how classroom practice can be adjusted to mirror what students will be asked to do on the test

Be given time to plan how disseminate what they have learned back in their school or district

Friday, January 31, 2014 • 9:00 AM—3:00 PM • CESA #4

The cost for this workshop is \$150 per participant. Preregistration is required on myquickreg.com.
