In this workshop you will learn how to use your PALS Pre-K data to plan instruction. Sections of the PALS Pre-K Data to Drive Instruction course and Monitoring Student Progress Course will be viewed, with time for discussion as a school team and networking with other schools/districts. The Emergent Reader Electronic Lesson Plan will be used to model how to plan differentiated early literacy instruction. PALS Pre-K Mid-Year materials and administration guidelines will also be discussed.

Audience: Elementary teachers, principals and administrators, and early childhood teachers are welcome to attend.

NOTE: Participants will need to bring a laptop, a hard copy of the Class Summary Report from their PALS Pre-K Online Account and the PALS Pre-K Teacher's Manual.
