Find out what the best practices of flipped classrooms are and how to get started quickly and easily using video – even if you're a complete newbie. We will take away the headaches, and provide safe and secure content management so you get back to focusing on education. Learn about the ability to live stream a class or event, automatically capture video content and make it available immediately.

Educating with video has never been easier. Capture video and publish in just 3 clicks. Start. Stop. Publish. It's that easy.
