

**Have you ever taken a Google Survey and thought that was “cool”???**

Are you trying to find the time to integrate Google Forms into your daily routine???

**Has your school “gone Google” and you know the basics and want to branch out into Forms?**

Have you ever heard of FLUBAROO and wonder what that was???

**If you answered YES to any of these questions, this workshop is for you.**

See how a local teacher uses Google Forms in the classroom. She will demonstrate the how to's of Google Forms by starting basic and end by inserting video into the surveys. Participants are encouraged to bring along material to create a subject specific form to use with their students. Dawn will show examples of forms being used at her school and right in her own classroom.
